

Ospa TopSwim

Counter-current swimming for the entire family

- Health through active wellness
- The upgrade for your swimming pool
- Great for the entire family
- Natural swimming feel

ospa

Zero-turn swimming

An endless swimming experience for young and old

Laura Philipp,

4th place Ironman Hawaii and German 70.3 Triathlon Champion on Ospa PowerSwim:

"During my first test swim, I was surprised by the even and wide current of the Ospa TopSwim. It felt like real long-distance training. A variety of training levels make for effective swim training."

Customized training levels

In connection with Ospa BlueControl®, the entire Ospa PowerSwim family makes it possible for you to create your own customized training plan: Save up to 6 personalized training programs, each with 5 successive power stages of customizable strength and duration.

The all-in-one counter-current system

One panel – magnificent design

Controlled by sensor button

The power can be adjusted in 5 levels using the Ospa Sensor button. In connection with Ospa BlueControl®, 6 training programs can be created.

Illuminated jets

The optional RGB colored jets are a unique style element. They light up in a color corresponding to the power level. This makes the power level apparent while swimming.

The horizontal arrangement of 3 Ospa DesignLine jets creates a wide swimming area for a swim feel that couldn't be more natural. Current-optimized jets ensure a uniform and gentle water jet.

For the entire family

With the compact TopSwim counter-current system from Ospa, there is no shortage of relaxed swimming and family fun along with athletic challenges.

All-in-One

3 jets, hair-safe intake and sensor button in one housing with polished stainless steel panel. For fast and easy installation. Suitable for all pool types.

Ospa TopSwim

The upgrade for any pool

The compact counter-current system transforms your swimming pool into an endless pool. Adjustable in 5 power stages, the Ospa TopSwim provides relaxed, natural swimming and fun for the entire family.
